OBJECTION: Residential Scheme of 48 new flats – site of former cinema and bingo hall, Buxton Rd
Planning Application no 153261

I am a local resident of Waltham Forest and **I'm very worried** about the planning application submitted for the site of the former Buxton Rd cinema.

I understand it's important to build more houses in Waltham Forest but **I don't want them to look like the proposed building on Buxton Rd.**

I think that:

1. The proposed building looks **cheap** and brings down the appearance of the heritage protection area around.
2. The proposed building looks **ugly** and spoils the looks of nearby Victorian Clock House, Mission Grove Primary School and old buildings on the High Street.
3. The **front of the old cinema should be kept** because it is historical and the cinema was an important building for the local community.
4.
.....

I think that the design of the proposed building should be changed to **get it right.**

We all **deserve better new buildings** in our neighbourhood.
